MEMORANDUM FOR: DCI  
DDCI  
DDA  
DD/S&T  
GC  
D/Sec

FROM: Legislative Counsel

SUBJECT: Damage Assessment - SSCI Testimony,  
Thursday, September 14, 1978

The undersigned telephoned Bill Miller to obtain the Committee's permission to have the DCI go off the record when questions as to the technical damage caused by the Kampiles matter are raised, as they are certain to be, during Thursday's SSCI hearing. Miller said that the Committee would be happy to receive the DCI's testimony off the record if we agreed to supply a statement on damage assessment in the future when court considerations permit. The undersigned replied that that might be a long time in coming, assuming trial and appeals. Mr. Miller replied that that made no difference; they would be happy to wait. They need to have something merely for record purposes. The undersigned has informed Tony Lapham who believes that this should take care of the problem.
